Project management is not just restricted to certain industries, or to individuals with certification as a project manager. Lots of us are expected to complete assignments that are not a usual part of our job, and to get the job done well, within our budget, and on time.

This training is intended for participants who understand the conceptual phase of a project's life cycle, including setting goals, creating a vision statement, and creating the Statement of Work. This course will take participants through the remaining three stages: planning, execution, and termination.

What Will Participants Learn?

- ✓ Identify your project's tasks and resources
- ✓ Order tasks using the Work Breakdown Structure
- ✓ Schedule tasks effectively
- ✓ Use basic planning tools such as a Gantt chart, PERT diagram, and network diagram
- ✓ Prepare a project budget
- ✓ Modify the project budget and schedule to meet targets
- ✓ Identify and manage risks
- ✓ Prepare a final project plan
- ✓ Execute and terminate a project
- ✓ Develop and manage a change control process
